JavaScript Wall Clock: Exercise 6 | JavaScript Tutorial In Hindi #61

The task you have to perform is very interesting. To complete this task, you have to use the date and time functions in javaScript. If you have not watched my tutorial on Date Object, then click on the link below:

https://codewithharry.com/videos/javascript-tutorials-in-hindi-24

Problem Statement:-

You have to create a wall clock using JavaScript. The clock should display at the top of the website. Here is the image of how your clock should look like:

11:36:12 AM

This exercise belongs to the JavaScript series for beginners. To access the complete playlist, click on the link:https://codewithharry.com/videos/javascript-tutorials-in-hindi-1 .Solving exercises will help you become a good problem solver and enables you to accept the challenge and acquire new skills. For the solution of this exercise, check the *tutorial#62*

If you like my work, then keep supporting and stay up to date with **codewithharry**.
